

School Profile - SMA Negeri 8 Jakarta

About

SMA Negeri 8 Jakarta is 3-year a public high school in South Jakarta, Indonesia. It is located on Jalan Taman Bukit Duri, South Jakarta. The school received Accreditation 'A' from National Accreditation Board (BAN).

Founded in August 1, 1958, SMA Negeri 8 Jakarta is well known for its highly competitive admission process, achievements in science competitions such as the National Science Olympiad, and an excellent performance of its students in the Indonesian public university entrance examination. The school has been ranked as one of the best high schools in the country for multiple times, and recently ranked 4th nationally and 2nd highest in Jakarta province based on the average score on National University Placement Test (UTBK) 2020.

Many of its students study in University of Indonesia and Bandung Institute of Technology, considered Indonesia's most prestigious colleges along with Gadjah Mada University, as well as universities abroad, many of them pursue degrees in medicine, engineering and economics.

Vision

Creating high quality graduates in the aspects of personality, academics and non-academics of international standard

Mission

- Organizing learning activities that are interactive, inspirational, fun, challenging students to participate actively and creatively.
- Organizing a learning system that encourages actualization of student competencies.
- Carrying out personality development activities that include faith and noble morals.
- Organizing interest and talent development activities based on needs and achievement-oriented.
- Implement efficient, effective, transparent and accountable school governance.

Curriculum

SMAN 8 received Accreditation 'A' from the National Accreditation Body/BAN. The school is using Indonesia National Curriculum 2013 that lasts for 3 years (10th to 12th grade) in which students should enroll in specialization of natural sciences or social sciences from the 10th grade. The school does not offer language/literature specialization.

The curriculum emphasizes on four key aspects in appraising the students: spiritual, social, knowledge and skill. There are total 42-44 learning hours per week, in which each learning hour lasts for 45 minutes. The academic program is organized on three clusters of subjects:

- General Subjects A (17 learning hours/week): Religion and Moral, Civics, Mathematics, Bahasa Indonesia, English and History;

- General Subjects B (7 learning hours/week): Arts, Physical Education, and Craft & Entrepreneurship;
- Specialization Subjects (18-20 learning hours/week):
 - Mathematics & Natural Science Specialization: Mathematics, Biology, Physics, and Chemistry. Students in this specialization also have to take two elective subjects in 10th grade and take one elective in 11th and 12th grade from the following subjects: German literature, Informatics, Geography, Sociology, Economics, or English literature;
 - Social Science Specialization: Geography, History, Sociology, and Economics. Students in this specialization also have to take two elective subjects in 10th grade and take one elective in 11th and 12th grade from the following subjects: German literature or English literature.
